## SAUVIGNON

*Vin de Pays d'Oc*

The Pays d'OC offers an authentic richness thanks to its Mediterranean climate. This wine is made from 100% Sauvignon. There is a variety of different soil types, principally clay and limestone with some areas richer in schists.

After the harvest, the grapes are refrigerated at 10°C. Skin maceration is carried out for a few hours, followed by a gentle pneumatic press. The temperature of the alcoholic fermentation is controlled and the selected yeasts increase the fruit flavours which then further enriches the aromas of the wine.

The Sauvignon offers aromas of citrus fruit, passion fruit and blackcurrant buds. Its fruity character gives not only depth but also a lovely length. It is a balanced wine with a delicate freshness.

This wine is ideal as an aperitif or to drink with seafood, grilled fish, salads or grilled food.

Best served between 8 to 10 °C.
